Work of Captain and Crew Is Rapidly Praised by Yachtsmen.

(By Associated Press)

New York, July 28. — A great chorus of whistles from river craft and factories shrieked a hearty greeting to the Resolute, victor in the 1920 international yacht races, today as the gallant cup defender passed up the East River to her moorings. The defender will be taken to Bristol, R. I., and be dismantled.

Yachtsmen today highly praised the handling of Resolute by Chas. F. Adams, second, in all the races off Sandy Hook. His generalship was declared to be nearly faultless.

Sir Thomas Lipton, who hid his bitter disappointment behind his cordial congratulations to the Resolute and her crew, saying the better boat won, will soon leave for a visit to Canada. He will issue another challenge in 1922 and will name the challenger Shamrock V, he said.

(By Associated Press)

London, July 28. — Elihu Root, former American Secretary of State, today formally presented to the British people the St. Gauden's statue of Lincoln.

Premier Lloyd George abandoned pressing business to deliver the speech of acceptance.

The event was widely heralded in the British press as further cementing Anglo-American friendship. In the course of his address Mr. Root declared:

"It is the identical fundamental conception in both countries which make it impossible that in any great world emergency Great Britain and America can be on opposing sides. These conceptions of justice and liberty are the breath of life for both. While they prevail both nations will endure, if they perish both nations will die. These were Lincoln's inheritance."

Unofficial Republican New York State Convention Adopts Platform.

Indorses Republican National Platform and Offers Additions.

(By Associated Press.)

Saratoga Springs, N. Y., July 28. — Indorsement of the republican platform, pledges of enthusiastic support to Harding and Coolidge, and a declaration for a league of nations with "such reservations as shall protect the sovereignty and independence of the United States and always retain in Congress alone the power to declare war" are contained in the platform submitted to the unofficial republican state convention today.

There is no prohibition plank. "Prohibition is not a state issue" the document declares. The high cost of living, housing, industrial relations, reconstruction of state government, finance and other state issues are considered at length.

Repeal of the direct primary laws as affecting states and judicial offices is urged.

They are here to meet their future husbands, whose names they have already adopted. They are being interned at Angel Island while their records are being investigated. "Picture brides" are so called because they have been selected as mates by Japanese men who have never seen them, but were guided in their choice solely by photographs.

COX DICTATING SPEECH AND IS TO FINISH SOON

First Installments Are Nearly Ready For The Printer.

(By Associated Press.)

Dayton, O., July 28. — Dictating to his secretary his address for August 7 accepting the Democratic nomination was the exclusive affair today before Governor Cox.

For the first time since his nomination his engagement list was blank. Installments of the address were to begin going to the Governor's print shop today with arrangement for strict secrecy.

The Governor has stated he desires to have his address "live copy" in its news features as delivered August 7, without being discounted by advance statements.

Governor Cox is keeping close counsel regarding details of his address and has given no intimation whether he would discuss prohibition questions.

With the party platform silent on prohibition, friends of the Governor here who have been associated with him for years express the belief he will not mention it in the speech of acceptance, but that, with what they say is characteristic fearlessness, he will have no hesitation in discussing the subject in his campaign speeches.

Because of his newspaper training, the Governor was reported today to be making fast work on his address.

WILMINGTON SIGNS OLD LEAGUE PITCHER

There was much speculation among local fans concerning just what the Wilmington Clintons would do without the services of their mainstay in the box, Hieronemus having gone to the Jeffersonville Tigers for the season. What they did was secure "Red Buck" White and he showed the Elmwoods of Cincinnati to the small amount of four hits Sunday afternoon while he struck out fourteen batsmen. Wilmington won 12 to 1.

Here is the probable lineup next Sunday against the Washington Athletics at Sunnyside Park: Martin, ss; Frey, 3b; Lynn Mathews, cf; White, p; Grandall, 1b; Davis, lf; Stroup, 2b; Clay Mathews, c; Taylor rf.

Here is the way the Wilmington News-Journal sums up the game next Sunday.

"Next Sunday the Clintons will journey to Washington C. H. to meet the Athletics. Rumors are coming from the neighboring city that Washington is expecting to defeat the Clintons, now that Hieronemus has joined the Jeffersonville forces.

"The Clintons, on the other hand, think that they hold the trump card that will put an end to this argument from the Washington fans as the Clintons are not suffering for pitching material by any means. A big game is expected and no doubt many Wilmington fans will follow their team."

RUSH TO THE SOUTH GETTING UNDERWAY

Berries in the counties south of Fayette are ripening and the annual rush to the berry patches has started. Last week end there were many black berry parties from among local people in Highland and Ross counties and they reported that the berries are of excellent quality while they seem to be very plentiful. Many of the berry owners keep a close watch for trespassers.

Many persons are preferring to take a day off and visit the patches and pick the berries themselves rather than pay the price at which they are selling on the markets.

This great rush to the south is expected to continue a couple of weeks.

M COMPANY VETERANS ARE BEING NOTIFIED

Forty men are expected to attend the reunion of M Company, 166th Infantry, which will be held Thursday evening at Memorial Hall at eight o'clock and which will commemorate the glorious part taken by that fighting unit in the battle of Orca when more than half the men were wounded and more than a score killed in one day's fighting.

The formation of a local Rainbow Chapter will be made and it is also occasion for a lunch and smoker and a time for reminiscences of former comrades in arms.

In vitations were sent out to all former members of the Company whose addresses could be ascertained. Since their discharge from the service the men have scattered all over the state and many of these have signified their intention of attending.

The original members of the famous unit are yet in Fayette county to a great extent and all have been notified of the reunion.

JOHN H. PACKER, well-known electrical engineer of Liberty, Mo. who says that to look at him today no one would ever take him to be the same man he was before Tanlac restored his health. Has gained forty-four pounds.

"For two years previous to the time I began taking Tanlac, I lived principally on a raw-egg diet. During this time I was laid up in the hospital for five months and practically no hope was held out for my recovery. I don't suppose any man had a worse case of stomach trouble than I did in fact they said I could not live.

"Tanlac did not seem to help me much at first, and I had almost made up my mind to give it up, but if I had given it up it would have been the mistake of my life. I stuck to it for a year and am thankful that I did or after finishing my fourth bottle my appetite was better and I noticed myself improving.

"This encouraged me to keep on taking it and in two months I was able to eat a good square meal and digest it as good as anybody. Then it wasn't long until I got so I could go back to my work and at the time I had finished my last bottle, I found I had actually gained forty-four pounds in weight.

"To look at me today no one would ever take me to be the same man I was when I began taking Tanlac."

The above remarkable statement was made recently by John H. Packer, well-known electrical engineer of Liberty, Missouri.

Tanlac is sold in Washington by C. S. Lever, in Lowell by Mason's Drug Store, in Jeffersonville by J. B. Davis, in Octa by I. W. Murphy and in Millidgeville, E. L. Ford Sons, Lee Ortman, Selden. — Advt.

COLUMBUS PIKE IS NOW CLOSED

County Surveyor, Frank M. Kennedy has placed road signs notifying the traveling public that the Columbus pike has been closed over the thirteen miles of highway under improvement and that persons going to Columbus from this city must detour. Most of the traffic now is going by way of Circleville.

Mt. Sterling bound traffic must take the Circleville pike thence by the Bogus road to Waterloo and Mt. Sterling.

Up until this week the road has been open to traffic and was passable over almost its entire length through the courtesy of the contractors although it was not being extensively used, but far is now being laid and a detour is necessary.

It was announced at the County Surveyor's office Wednesday that more than three miles of tar has been spread and that it is being rolled down as fast as possible. All three contractors are rushing their work and the completion of the movement is not far off providing that materials continue to be procurable.

A forty-five foot concrete culvert is being built by Contractors Neft and Rader at the far end of the work.

It is learned that the work of improvement is also under way in Pickaway county and this makes the road impassable beyond the Fayette county line also.

HEALTH CONDITIONS EXCEPTIONALLY GOOD

Not for many weeks has Washington had a case of quarantine for contagious disease—athing very unusual at this time of the year, and during the interval of no contagion Health Officer Byron has been looking after a general clean up where conditions required it, with the result that the city generally is more sanitary right now than at any time in recent months.

The last quarantine case occurred five or six weeks ago when a case of small pox was brought into the city from Williamsport.

COAL SUPPLY FOR OHIOANS HINGES ON CARS

Columbus, Ohio, July 28—A statement has been given here by Walter D. McKimsey, of the Southern Ohio Coal Exchange, on the order of the Interstate Commerce Commission that coal must be sent to the Northwest in the proportion of 25 per cent of each mine's producing ability. There is little cause to worry, although, admittedly, it will make coal deliveries to local Ohio consumers later than usual, McKimsey said.

"This new order means that Ohio consumers must wait until the needs of railroads, public utilities, and the Northwest are supplied before they get theirs.

"To be sure the appeal of the Northwest must be answered; there is no way of getting from it.

"In my opinion the whole matter hinges on service order No. 9, which orders railroads to give mines a 100 per cent car supply. If we get the cars we can ship this 20,000,000 tons to the lakes that much quicker and then be in a position to take care of the local consumers. Roads have been slow in carrying out this order and to me, it is the most important of those recently issued by the Interstate Commerce Commission.

"Factories will be unsupplied.

RESUME PAVING ON NORTH MAIN

After installing a new engine on the mixing plant of the Andrews Asphalt Paving Company and causing a delay of well over one day the sheets of the plant began to turn again Tuesday afternoon and roll as was again resumed on Main St. It was believed that this section of the resurfacing could be completed sometime Tuesday.

Wednesday morning the plant was put out of commission for a short time and the entire force was transferred to other streets with brooms and shovels during the delay. Fayette street was swept and put in readiness for the binder layer of asphalt. Fayette street will be improved next and Thursday will probably see the scene of activity transferred to that section of the city.

WOMEN RIDERS TO BE FEATURE ON DAY OF FAIR

The Wednesday half holiday has been recognized by adding to the Fayette County Fair program special features that will be unusually entertaining.

This will be in the nature of a ladies riding contest and will bring out an array of riders that will demonstrate that this time honored and healthful exercise is in no way a last art or tradition.

Last week Hillsboro had her fair with its accompanying crowd, Fayette County Fair Company purposes of promoting the local show quickly saw that the outstanding feature for the day was the women's riding event.

Fifteen young women all were mounted and appropriately costumed appeared and took part in an exhibition of skill, speed and generalship that must appeal to all.

Inquiry developed that the success of the program was in the greater part due to the untiring efforts of John Evans, president of one of Hillsboro's banks, who had brought to his work the efficiency that comes from real enthusiasm.

Fayette County representatives were fortunate in being able to induce him to accept an invitation to lend his assistance in repeating this unique performance on Wednesday of the coming fair.

It is reasonably sure that not only the 15 ladies participating in the Hillsboro exhibition will be here, but that the number will be augmented by others from Fayette County as well and the different contest will be so planned that every one of the contestants will receive recognition and aid and participate in the distribution of prizes.

Not since the passing of The Washington Horse show has there been an opportunity for all to enjoy an exhibition of this kind.

In addition to this there will be a strong racing program consisting of the 2:29 pace, 2:30 trot and 2:17 pace each for \$400.

These classes are always favored by a heavy entry and the fact that \$400 is the largest purse being given by any competing fairs, that week the local fair seems assured of a large number of the best horses.

Already horsemen are sending their entries in advance.

OBITUARY

Grace Viola Epperson was born at Rainsboro, O., June 23, 1892. Died at her home at Stanton, O., July 21, 1920, aged 28 years, 27 days.

Her early girlhood was spent in the vicinity of Rainsboro where there still remains a large hille of her friends and relatives.

While still in school she planned to devote a portion of her life to the cause of suffering humanity as a trained nurse and carrying out these plans at the age of eighteen entered the Huron Road Hospital at Cleveland Ohio.

Four years of hospital training and later service in her chosen profession could not fail to leave their mark in a heart quick in sympathy, a hand ready in service.

But for the physical strain of those strenuous years when self was entirely disregarded in untiring devotion to duty, nature demanded restitution and few who have known her smiling face and cheerful voice in recent years had any inkling of the suffering which this sunny disposition concealed. Early in life she united with the M. E. Church at Rainsboro and during the remainder of her life was active in the Masters service in any community where she found His work to do. She later held membership in the Church of Christ in Washington C. H. and at the time of her death was a member of the Mount Olive M. P. Church. In July 1915 she was united in marriage with Orville Bosh of Washington C. H.

This happy union was blessed with two sons, Harold and Kenneth who with their father and a wide circle of relatives and friends today mourn her loss. Of her immediate family but two brothers remain, both parents, two sisters and one brother having preceded her to a brighter home.

OWNS FARM NEAR ASPHALT QUARRY

Mr. J. R. Andrews, formerly of this county, now of Highland county, owns a farm within a few hundred yards of the big asphalt deposits recently unearthed in Highland county and now being used for road and street building. It is believed that the deposit may extend under the Andrews farm.

Plans are under way to construct a switch to the deposits and to employ some 500 men in quarrying the deposit and developing the find to its full extent.

Seventy-eight percent of the deposit is limestone and the remainder is asphalt and other products of a valuable character.

Tests made show that enough gas is generated in heating the asphaltic deposit to furnish fuel for the heat, and that one test made showed that a cubic yard yielded 38 gallons of choice gasoline.

The first carload of the material has been shipped to Cincinnati for use where traffic is unusually heavy. Tests made show that the material is of a better grade than that of Kentucky asphaltic deposits.

FORMER SOLDIER IS LAID TO REST

Rev. John Dalbey, assisted by Rev. D. H. Rejy of McNair Memorial Church, officiated at the funeral services Tuesday afternoon at 3:30 o'clock for Mr. Charles W. Barnes, well known citizen and member of the B. H. Millikan Post of the G. A. R. The service was held at Grace Methodist Church of which Mr. Barnes was a member.

It was of note that funeral services were being held at the same time in another part of the city for a comrade in arms. Mr. John Bond long a friend of Mr. Barnes and associated with him for many years in the activities of the G. A. R.

Following the services at the church the burial service of the Grand Army was performed at Washington Cemetery where internment was made and taps was sounded over the grave of the former soldier.

Pall bearers were the two sons, Mr. Mill Barnes and Mr. John Barnes and Messrs Cary Cripps, and Frank Whitmer.

BOY KILLED IN FALL IS BURIED TUESDAY

Particularly sad were the services held Tuesday morning at ten o'clock at the home on the Circleville pike for Clemerson Leach, sixteen year old son of Mr. and Mrs. Phillip Leach who died instantly last Sunday afternoon when he fell while playing at the Sunnyside School grounds.

The home was crowded with the many friends of the boy who had been a favorite among his playmates. Flowers were in profusion.

Rev. Leach had charge of the short services.

The committal service was made Washington Cemetery, six boy friends acting as pallbearers.

Within a short time a wreck train was on the scene and removed the broken car from the track.

Political Nonsense

Two candidates for high offices in the nation have asserted that they favor making the war time bonds of the government worth all that their holders paid for them.

On the face of it that statement sounds like very cheap and tawdry politically demagogery and the more consideration accorded it the flatter it appears.

In the first place the government bonds are worth all their holders paid for them, principle and interest. They can't be circulated as money and can't be converted into cash, save at maturity, on any other terms than those fixed by the traders who are seeking to accumulate as many of the bonds as possible.

The holder of a government bond has only to keep it to get full face value with interest. The entire faith of the government and the people is pledged and every dollar of property in the nation is back of those bonds. If they are not good, then nothing is good. Our farms, our factories, our businesses and our homes—the dollars in our pockets are not good if the government bond isn't good.

Just how the government is going to prevent a holder of a government bond from selling or trading it off for less than it is worth, has not been stated.

If these talkative candidates know of any way to compel people to insist on getting what their bonds are worth, they should speak up and give the public the remedy, otherwise they should shut up.

If bond holders would rather trade a good security earning four percent for doubtful or worthless security promising a higher rate how are they going to be prevented.

Right at the start of the campaign public sentiment should frown down all such nonsense as "making the war bonds worth all the holders paid for them." If the candidates making that assertion know how bond holders may be prevented from making bad trades or sales they are unpatriotic if they don't speak out.

Propaganda

The people in this old world of ours are suffering from the effects of too much propaganda.

The wild exaggerations of fact, the half truths and whole falsehoods that have been and are being circulated broadcast among the people have destroyed the whole splendid foundation of confidence upon which the business and social life of humanity has been erected.

Built up through all the long centuries, cautiously, painstakingly and tirelessly by the spoken word and by the printed pages of truth and above all reinforced by long years of patient endeavor and upright living, it was the confidence that men and nations had in the honor of their fellows that enabled the people to live in peace and safety and to conduct the vast volume of world trade to the benefit of each other.

During war times the infernal propaganda of the central powers destroyed confidence, aroused and fostered suspicion and fear, appealed to the selfishness and the greed of peoples and nations. Counter propaganda was necessarily resorted to in self defense.

From that beginning propaganda has grown and spread. An era when wild imaginings and hates are circulated for fact seems to have engulfed the whole world.

Business has not escaped the taint and we are all feeling the effects and paying the penalty.

So many conflicting statemnets of "fact" are circulated that people have lost their bearings and not being able to get at the truth are depending on themselves—everyone going it alone, every nation going alone and no one making much progress in the right direction.

It is a menacing condition that confronts the world. Just now when people need each other so much, when nations must depend so much on each other and trust each other, when confidence was never so needed as now, the awful tragedy is that the people and the nations of the world were never so separated from each other by lack of confidence.

Propaganda was the most destructive weapon of war and it will require longer to recover from its wounds than from those inflicted by shot and shell.

POETRY FOR TODAY

GARDEN CAPRICE

Sun-drenched, rife with growing.
Kissed by breezes vagrant,
Lies my garden glowing,
Colorful and fragrant.
Flecked with hues prismatic
(Living jewels gleaming),
Richly aromatic
Lies my garden dreaming.

Winged guests assembled—
Clear the garden larder;
Bugs in hiding tremble—
Birds but search the harder!
Bright-eyed, swiftly darting,
What eludes their vision?
Sated and departing,
Tuneless their derision!

Evening comes and hushes
Beast and bird to slumber;
Cooling dew fall brushes
Dust that might encumber
From sweet flower faces.

Under starlight gleaming,
Look!—what wild thing paces
Through my garden's dreaming?

TEUTONIC CLUB IS DISAPPEARING

Berlin. (By Mail)—A venerable Teutonic institution, the Stammtisch, is disappearing. The Stammtisch was the middle-class man's club, but since the price of beer has gone up for less than a pint, the inducement to gather around the oaken board in vaulted "Keller" to discuss politics art or philosophy has faded away and the great decorative steins with the embossed pewter lids have become mere shelf ornaments.

Berlin Stammtische were many and various. Each has its own customs and convivial ritual. Some, where painters, cartoonists, actors and literary men fore gathered, were famous throughout the German speaking world and had been in continuous existence for over a century.

The latest one to go is the artists' Stammtisch at Siechens, in the Behrenstrasse, with which many famous names are associated.

To the traditional German, the end of the Stammtisch means the end of Gemutlichkeit, that particularly beautiful state of mind induced by good cheer and high thinking.

When the train came in back in 1910

TEN years ago you might have seen one or two automobiles waiting outside the station, when the weather was pleasant.

Today the square is crowded with them. And most of the cars you generally see there are moderate-price cars.

Anybody who tells you that owners of moderate-price cars are not interested in the quality of their tires has never met very many of them.

We come in contact with the small car owner every day and we have found that he is just as much interested as the big car owner.

There is one tire, at least, that makes no distinction between small cars and large cars so far as quality is concerned—the U. S. Tire.

Every U. S. Tire is just like every other in quality—the best its builders know how to build.

Whatever the size of your car, the service you get out of U. S. Tires is the same. It isn't the car, but the man who owns the car, that sets the standard to which U. S. tires are made.

We feel the same way about it. That's why we represent U. S. Tires in this community.

LIPTON LOSES RACES

American Yacht Defeats Sir Thomas Lipton's Shamrock IV in Final Race of Series and Retains Trophy Cup.

(By Associated Press)

Sandy Hook, N. J., July 27.—The America's cup stays in America.

This was decided shortly before sundown today, when the American defender Resolute captured the 1920 regatta, three to two, by defeating Sir Thomas Lipton's Shamrock IV in the final race.

The defender outslaid the green sloop decisively boat for boat, in the last contest of a tempestuous series—the closest and the most hard fought in the history of the precious trophy, crossing the line at 7:52:16, official time, only about 25 minutes before expiration of the six hour limit.

Including her handicap of 6 minutes 40 seconds which she did not need, Resolute won by 19 minutes and 45 seconds.

SHAMROCK LED OFF

The challenger was about two miles astern when the American sloop dashed over the line. After having been led by the challenger two thirds of the distance to the first mark, Resolute crossed her bows ten miles from the start and breezed into a lead, which she maintained and increased to the finish line.

FORMER EMPRESS HAS BAD ATTACK OF HEART DISEASE

Doorn, Holland. (By Mail).—The former German Empress, Auguste Victoria, has undergone so much distress during the past two years that she has suffered for several months from aggravated attacks of heart disease. Recently she has been leading the life of an invalid. She has had milder attacks of this malady for many years.

At the House of Doorn, where, surrounded by a staff of her own servants, and attended almost constantly by Countess Kellar—for many years her lady in waiting—she has recently been so completely indisposed that she has at times been unable to walk and has not for a long time been permitted to walk up or down the stairs. A special elevator was built for her use.

Those familiar with the inner life of the former Emperor's household since the flight from Potsdam to Holland declare that while William, consoling himself with religion, has been more or less of a stoic, the former Empress has suffered great mental distress and has felt severely the separation from her children.

From the time she arrived at Amerongen, in November, 1918, she has suffered continually. Now and then, she was the victim of heart attacks so severe that she was confined to her bed for several days at a time.

In the spring of 1920, when the Kapp revolution in Berlin was followed by an urgent demand that the former Emperor be closely guarded, the life of the exiles became more constrained and Auguste's ailment more pronounced.

She was constantly under the treatment of Dr. Haehner, a Berlin physician, who is a member of the former Emperor's staff and, also, a noted Dutch specialist in heart diseases, from Utrecht, was called into consultation.

He decreed that she must lead a very quiet life and it has been no secret at Doorn that in May and June of this year, the former Empress suffered such violent attacks that her life was despaired of. On these occasions, the former Crown Prince and such other of the Hohenzollerns, who were within easy reach, were summoned to her bedside.

At Doorn, everything has been done to avoid disturbing the former Kaiserin. News, or information that might tend to excite her, has been kept from her. She has never been left entirely alone. If she has been able to walk in the garden, attendants were in easy call.

NEW HOLLAND MEETS CIRCLEVILLE BUNCH

New Holland Giants have scheduled a baseball game for next Sunday afternoon with the Circleville Tigers and it will be all the more interesting to the fans of eastern Fayette due to the fact that it is going to be played on the New Holland diamond.

Last week end the New Holland team played the Mt. Sterling nine a fourteen inning no decision contest and the backers are predicting a Giant victory.

PREPARING FOR RECORD CROWDS AT FAYETTE FAIR

After viewing the crowds attending other fairs in the state, where attractions are fewer than at the Fayette County Fair, Captain Charles Allen of this city declares that there is every indication that the crowds attending the Fayette County Fair this year will be greater than ever before and arrangements are now being made with a view to accommodating the big gathering.

A number of conditions combine to bring the record breaking crowd, and outside of the numerous attractions, including the largest purses ever hung up for Fayette County Fair races, the increasingly large number of automobiles offer an easy means of reaching the fair and the crowds will include several thousand from adjoining counties.

Even now the grounds are being prepared for the big crowds and fair plans are being pushed by heads of all departments.

ARRANGING WEEKLY SERIES WITH TIGERS

Arrangements are being made by the Washington Athletics for a series of three week-day games with the Tiger baseball club of Jeffersonville. If satisfactory to both teams a three game series will be played on Wednesday afternoons, starting on the afternoon of August 18th at Sunnyside Park. It is possible that all games may be played here although that is left to the decree of the Tiger management.

The Tigers showed Sunday that they are of fit caliber to cope with the Washington club. They intend to keep their lineup strengthened for the series.

Now comes the game on the home lot for next Sunday when the Wilmington Clintons are to show their wares here for the second time this season. It is possible that Sammy Marks of the Bainbridge club will pitch.

With Snag Emery back in the lineup things look favorable for a victory over "the hated enemy."

Save Money—Put Goodyear Tires on Your Small Car

Avoid disappointment with tires made to be sold at sensationally cheap prices by using Goodyear Tires built to deliver maximum mileage at minimum cost.

The high relative value built into Goodyear Tires of the 30 x 3 1/2, 30 x 3 3/4 and 31 x 4 inch sizes, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to these sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell or Dort, take advantage of the opportunity to enjoy true Goodyear mileage and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at our nearest Service Station.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread, \$23.50

30 x 3 3/4 Goodyear Single-Cure Fabric, Anti-Skid Tread, \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30x3 1/2 size \$4.50 in waterproof bag.
